# Identity Solutions for Higher Education

## Entrust Instant ID Data & Information Security

Security is in our DNA and it's infused into our software products in many ways.

## Entrust Sigma DS3 Direct-to-Card Printer

Easily issue the most secure IDs in the world.

## Entrust Artista CR805 Retransfer Card Printer

A scalable, integrated solution that's ideal for many different card programs.

## The Entrust Difference

The smartphone changed the mobile phone into a mobile enablement tool with infinite possibilities. Similarly, Entrust Instant ID software enables you to reimagine your card issuance program.

As technology on campus rapidly changes, closed or proprietary hardware and software environments can make it difficult to deliver seamless one-card experiences. Integrating with agnostic ID card providers enables universities to create a more connected, more efficient ecosystem that simplifies identity, access, and payment - at scale, across many campus systems.
