

ENTRUST

Entrust Instant ID and Transact: Smarter ID Card Issuance for Universities

It's time to switch over to Entrust Instant ID

Entrust announced that effective March 31, 2021, ID Works & IDCentre are no longer available for sale. The end of support and end of service is March 31, 2022. Entrust recommends customers move to Instant ID to take advantage of all the benefits available in a modern ID issuance software.

What are the benefits of Instant ID?

Frictionless	Scalable	Future-Proof
<ul style="list-style-type: none"> • Easy to install and update - no dongles! • Intuitive administration <ul style="list-style-type: none"> - Quick Start Wizard - Browser-based, drag-and-drop design - Pre-built read/write smart card compatibility - Dynamic/custom workflows and designs 	<ul style="list-style-type: none"> • From one user to 200+ users, we'll grow with you! • Distributed, mobile enrollment and printing • No wires or cords • Support for multiple data sources • Supports up to 100 printers 	<ul style="list-style-type: none"> • No printer drivers needed • Supports hi-res 600 dpi printers • Network-based • Card agnostic • Next-gen printer support • Technical integrations with LeneIS2 and CloudCard • Security updates every release

Visit our [Instant ID page](#) for more information or to make the switch.
